

## Heaters Heating bands

### Flexible pipes for heating metal drums.

For standard metal drums from 25 to 200L. Powers from 300W to 1000W. Easy to fix the drum. They are usually used to melt solids, liquefy viscous materials and maintain the temperature of contained products.

**Application:** Industrial

- Power supply cable 1.5 m
- Heating uniformly spread
- Silicone insulation with glass fiber
